

OPEN UP A CAN OF BOOST MODE

THE FIRST 1000+ LUMEN COMPACT FLASHLIGHT

BOOST MODE:
Press and hold
for 1067 lumens

The new Pelican™ 3310R and 3310R-RA Rechargeable Flashlights

Go big, go bold, go boost mode. With up to 1067 lumens, these are Pelican's brightest compact flashlights ever. Flex your options. The 3310R can be used as a traditional flashlight, or attach the 3310R-RA to your chest pocket for right angle lighting. The lithium battery maintains power for longer run times and weighs less than batteries

used in conventional flashlights, and that means shorter recharge times and a lighter tool belt.

The new Pelican™ 3310R and 3310R-RA: The power can't be contained.
