HIGH CANDELA HANDGUN LIGHT + GREEN LASER

550 LUMENS

50,000 CANDELA

1 HOUR

447 METERS

REFLECTOR

MULTIPLE SETTINGS

LASER

IPX4 PROTECTION

DESCRIPTION

With a stunning 50,000 candela focused by a precision-made smooth parabolic reflector, the X400T-A generates a far-reaching high-intensity beam with a focused center spot that is highly effective for long-range engagements. You can count on the X400T-A to help you positively identify threats at significant distances and temporarily impair an aggressor's vision. It also provides a corona of diffused light to help you maintain situational awareness. The X400T-A's highly visible <5 Milliwatt green laser allows you to get on target quickly without using your sights. Once zeroed, it rarely needs re-zeroing, thanks to Nylok® adjustment screws that won't back out from the effects of recoil.

Activating the X400T-A is done via ambidextrous switching located at the rear of body, providing one-finger control — press the switch on either side for momentary-on activation, flip up or down for constant-on activation. Optional DG grip switches (for pistols) and a pressure activated XT07 tape switch (for long guns) permit the X400T-A to be activated without altering your grip on your weapon.

The rugged X400T-A with its T-slot thumbscrew clamp — attaches securely to the Universal and Picatinny rails found on most handguns. Its high-strength aerospace aluminum body is Mil-Spec Hard Anodized for superior toughness and is O-ring and gasket sealed to make it weatherproof to IPX4 test standards.

FEATURES

- Precision-made parabolic reflector produces a far-reaching, high-intensity beam for medium- to long-distance illumination
- Dimensionally identical to the X400U-A series
- Highly visible 5-milliWatt green laser, provides quick, accurate target acquisition without using your sights
- Integral ambidextrous momentary- and constant-on switching provides easy instant activation
- Mode selector switch allows you to choose light only, laser only, or light plus laser
- Attaches securely to Universal and Picatinny accessory rails
- Mil-Spec hard-anodized aluminum body and tempered window make it light rugged, durable and combat ready
- Accepts optional pressure-activated DG and XT remote switches for precision control without altering weapon grip

SPECIFICATIONS

	X400T - GREEN
OUTPUT	500 lumens
RUNTIME	Light only: 1 hour Laser only: 24 hours
PEAK BEAM INTENSITY	50,000 candela
DISTANCE	447 meters
CONSTRUCTION	Aluminum
FINISH	Mil-Spec Hard Anodized
WEIGHT (w/batteries)	5 ounces / 141.7g
LENGTH	3.76 inches / 9.55 cm
BEZEL DIAMETER	1.125 in (2.9 cm)
BATTERIES	Two 123A lithium (incl.)
SWITCHING	Ambidextrous push/toggle
LIQUID INGRESS PROTECTION	IPX4

All performance claims tested to ANSI/NEMA FL1-2019 Standard.
