

# Thermostat Battery Installation – CentraLite 3156105

## What You'll Need

- CentraLite 3156105 Thermostat
- Four AA batteries

## How to Install the Batteries

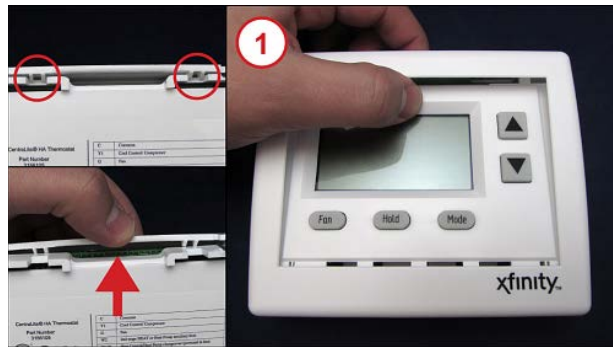

**Before proceeding**, please be sure that your system is disarmed. Working on devices while the system is armed can generate false alarms.

**Did You Know?** Before replacing the batteries in your Thermostat, your furnace must be turned off.

**Is This Your Thermostat?** Make sure that your Thermostat looks like the one in the image. If it does, you have the right document to find out how to install a battery in your Thermostat.

1. Release the snaps holding the Thermostat cover in place by gripping the top middle of the cover and pulling it away from the Thermostat.

2. Remove the cover completely from the Thermostat. The battery compartment is at the bottom of the Thermostat.

**Take a Look.** If batteries are already present, remove them by using your fingertip to gently pull one end of each battery up until that battery is loose and you can pull it free from the slot.

3. Insert four AA batteries into the compartment with the negative (-) ends of the batteries facing the battery spring contact.

4. When all four batteries are in place and facing the correct direction in the slots, the screen on the Thermostat will light up.

5. Place the front cover over the Thermostat, making sure that the **xfinity** logo is located on the bottom-right side of the Thermostat. Then, press the cover down onto the Thermostat until it snaps into place.

Confirm that the low battery alert has resolved and the equipment appears on your list of connected devices.

**Need Help?** Find these instructions online at <https://www.xfinity.com/support/home-security/installing-batteries-3156105-thermostat/>. Get more troubleshooting support at <https://www.xfinity.com/support/gettingstarted/troubleshooting/> or contact a customer service expert at 1-800-XFINITY.

**Help Protect Our Environment:** Please properly recycle your discarded batteries. For your convenience, batteries are accepted for recycling at various locations. Check [www.call2recycle.org](http://www.call2recycle.org) or call 1-800-8-Battery (1-800-8-228-8379) to find a recycling location near you.
